ABOUT ME

I am a university teacher in the Department of Educational Technology at the Faculty of Education, Helwan University. I have more than 7 years of experience in teaching and research in the field of educational technology. I hold a TOT course to prepare trainers from the Supreme Council of Egyptian Universities. I have a passion for improving the educational process through the effective use of technology. I believe in the power of technology to improve education. I am passionate about using technology to make learning more interactive and engaging for students. I have strong skills in designing and developing multimedia educational materials, evaluating the effectiveness of technology use, and training teachers. I am cooperative and effective at work, and I have the ability to work independently and collaboratively.
