

## **Mission of the Bachelor of Science and Education Program, Chemistry (English)**

### **Mission of the Chemistry Teacher Preparation Program (English):**

The program is committed to preparing distinguished and competent graduates in the field of teaching chemistry in English, capable of meeting the demands of the local and regional labor market by working as chemistry teachers in language schools and international schools. It also contributes to supporting and developing the educational system, advancing scientific research in science education, and serving the community and developing the environment, while adhering to ethical and professional values and national and international quality standards.
